### Date of declaration: 10 January 2020

Note: The focus of this ethical audit is on the ETI Base Code and local law. The additional elements will not be audited in such depth or scope, but the audit process will still highlight any specific issues.

This report provides a summary of the findings and other applicable information found/gathered during the social audit conducted on the above date only and does not officially confirm or certify compliance with any legal regulations or industry standards. The social audit process requires that information be gathered and considered from records review, worker interviews, management interviews and visual observation. More information is gathered during the social audit process than is provided here. The audit process is a sampling exercise only and does not guarantee that the audited site prior, during or post–audit, are in full compliance with the Code being audited against. The provisions of this Code constitute minimum and not maximum standards and this Code are expected to comply with national and other applicable laws and where the provisions of law and this Code address the same subject, to apply that provision which affords the greater protection. The ownership of this report remains with the party who has paid for the audit. Release permission must be provided by the owner prior to release to any third parties.

Gene	General observations and summary of the site:								

Site summary:

- This was an initial audit conducted by Benchmarks Co., Ltd. One auditor assessed the factory operations against the ETI Base Code and local legislations on a sampling basis in 1.5 days.
- At 9:00 of the audit date, auditor entered the factory then held an opening meeting; the factory management and worker representative were present in the opening meeting. They stated that they would be cooperative with this audit.
- The factory provided the payroll records and attendance records of at least 12 months for review.
- 10 workers were interviewed including 3 males and 7 female employees, 4 workers in 1 group and 6 workers were interviewed individually.
- The products manufactured at this site were cycling wear.
- Overall responsibility for meeting the standards was taken by the personnel department manager.
- There were total 39 employees on site (24 were females, 15 were males, all were permanent). All migrant workers came from other provinces in China, e.g. Jiangxi and Guangxi provinces.
- All employees were hired by the factory directly. The factory had established the effective employment policies and programs.
- No child labour, forced labour, discrimination, harsh or inhumane treatment was identified during the audit. The youngest worker on site was 22 years old.
- The factory signed labour contracts with all employees on the first day of employment and kept one copy of labour contract in the factory and issued one copy to each worker.
- No labour agency was used to hire workers.
- No sub-contractor or home worker was used by the factory.
- The working hour policy, labour contracts, etc. indicated that the regular working hours in the factory were 8 hours per day and 5 days per week.

- The working hours in the factory were recorded by electric attendance system.
- According to workers interview, overtime was voluntary.
- Wages for workers were calculated on hourly rated basis and paid around 30th of each month by cash.
- The local minimum wage was RMB2100 (i.e. RMB12.07 per hour) since 1 Jul 2018.
- The overtime wages were paid at 150% and 200% of workers' normal wage rate as legally required.
- Maximum overtime hours in sample was respectively:
- 92 hours/month in March 20119.
- 86 hours/month in July 2019.
- 92 hours/month in November 2019.

\*Please note the table above records the total number of Non-compliances (NC), Observations (Obs) and Good Examples (GE). This gives the reviewer an indication of problem areas but does not detail severities of each issue – Reviewers need to check audit results by clause.

### 1: Freely Chosen Employment

(Click here to return to summary of findings)

ETI

1.1 There is no forced, bonded or involuntary prison labour.

1.2 Workers are not required to lodge "deposits" or their identity papers with their employer and are free to leave their employer after reasonable notice.

#### **Current Systems and Evidence Examined**

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is/are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

### Current systems:

- 1. The factory had a policy which prohibits forced labour and this was available for review.
- 2. There was a non-formalised application procedure which stated that workers must present their ID's for proof of age but that only copies must be kept in the personnel files and the original given back to the workers.
- 3. The employee handbook given to all workers on joining, stated that workers within their probation period were free to leave with 3 days written notice and once a worker was permanent (this was out of probation) they can resign from the factory with one month's prior written notice, given to their supervisor or the personnel office. The handbook also stated that they would be given their full wages on their last day of work.
- 4. The terms and conditions of employment in the handbook stated that the workers were free to leave the workplace outside of their working hours.
- 5. Contract for security guards stated that they must not prevent workers from leaving the premises outside of working hours and where they were conducting searches that this was at the request of management, was done on a sample basis and was performed discretely and without significant delay to workers leaving at the end of shift.
- 6. The above was confirmed in management and worker interview.

#### 2: Freedom of Association and Right to Collective Bargaining are Respected

[Click here to return to summary of findings]

[Click here to return to Key Information]

ETI

2.1 Workers, without distinction, have the right to join or form trade unions of their own choosing and to bargain collectively.

2.2 The employer adopts an open attitude towards the activities of trade unions and their organisational activities.

2.3 Workers' representatives are not discriminated against and have access to carry out their representative functions in the workplace.

2.4 Where the right to freedom of association and collective bargaining is restricted under law, the employer facilitates, and does not hinder, the development of parallel means for independent and free association and bargaining.

Evidence checked should detail any documentary or verbal evidence shown to support the systems.

#### Current systems:

- 1. The factory management always respected workers' choice and the freedom of association and never interfered with workers to join the trade union or any other kind of workers committee.
- 2. There was no union but a worker committee in the factory.
- 3. The worker committee was made up of 2 worker representatives who were democratically elected by the production workers. The worker representative normally would have a meeting on a trimonthly basis to summarize the concerns and complaints from production workers.
- 4. All interviewed workers stated that they could report their concerns to the worker representatives or directly to the supervisor or upper management.
- 5. In addition, workers could also response their concerns through suggestion box. And all complaints or suggestions would be tackled within a short time.

### Evidence examined – to support system description (Documents examined & relevant comments. Include renewal/expiry date where appropriate):

## 6: Working Hours are not Excessive

[Click here to return to summary of findings] [Click here to return to Key Information]

ETI

6.1 Working hours must comply with national laws, collective agreements, and the provisions of 6.2 to 6.6 below, whichever affords the greater protection for workers. Sub–clauses 6.2 to 6.6 are based on international labour standards.

6.2 Working hours, excluding overtime, shall be defined by contract, and shall not exceed 48 hours per week.

6.3 All overtime shall be voluntary. Overtime shall be used responsibly, taking into account all the following: the extent, frequency and hours worked by individual workers and the workforce as a whole. It shall not be used to replace regular employment. Overtime shall always be compensated at a premium rate, which is recommended to be not less than 125% of the regular rate of pay.

6.4 The total hours worked in any 7-day period shall not exceed 60 hours, except where covered by clause 6.5 below.

6.5 Working hours may exceed 60 hours in any 7-day period only in exceptional circumstances where <u>all</u> of the following are met:

- this is allowed by national law;

- this is allowed by a collective agreement freely negotiated with a workers' organisation representing a significant portion of the workforce;

- appropriate safeguards are taken to protect the workers' health and safety; and

- The employer can demonstrate that exceptional circumstances apply such as unexpected production peaks, accidents or emergencies.

6.6 Workers shall be provided with at least one day off in every 7-day period or, where allowed by national law, 2 days off in every 14-day period.

## **Current Systems and Evidence Examined**

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is/are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

## Current systems:

- 1. All workers were used fingerprint scanning system to record their working hours.
- 2. The payroll records from December 2018 to November 2019 (current month) and attendance records from 1 December 2018 to 9 January 2020 were provided for review.
- 3. The working hour policy, labour contracts and etc. indicated that the regular working hours in the factory was 8 hours per day and 5 days per week.
- 4. Based on factory rule and workers interview, the employees worked for 5 days a week in 1 shift. The normal working hours were from 8:00 to 17:30 with 1.5 hours for lunch break from 12:00 to 13:30.
- 5. All the employees in worker interview stated that they worked overtime on voluntary basis.
- 6. No collective agreement freely negotiated with a workers' organization representing a significant portion of the workforce.
- 7. Total monthly overtime was above 36 hours per month (max in sample 92 hours/month).

Evidence examined – to support system description (Documents examined & relevant comments. Include renewal/expiry date where appropriate):

Details:

- 1. Factory policy on working hours
- 2. Local and national laws
- 3. Workers contracts
- 4. Attendance records
- 5. Production and quality records to cross check hours
- 6. Management interview and worker interview

### 8: Regular Employment Is Provided

[Click here to return to summary of findings] [Click here to return to Key Information]

## ETI

8.1 To every extent possible work performed must be on the basis of recognised employment relationship established through national law and practice.

8.2 Obligations to employees under labour or social security laws and regulations arising from the regular employment relationship shall not be avoided through the use of labour–only contracting, sub–

contracting, or home-working arrangements, or through apprenticeship schemes where there is no real intent to impart skills or provide regular employment, nor shall any such obligations be avoided through the excessive use of fixed-term contracts of employment.

## Additional Elements: Responsible Recruitment

8.3 Suppliers have full understanding of the entire recruitment process and assess all labour recruiters and intermediaries against legal and/or ethical requirements.

8.4 There are effective management systems in place to identify and monitor the hiring and

management of all migrant workers, contract workers, agency workers, temporary or casual labour The supplier shall implement processes to enable adequate control over agencies with regards the above points and related legislation.

8.5 Employment agencies must only supply workers registered with them.

8.6 Workers pay no recruitment fee at any stage of the recruitment process.

8.7 Worker contracts accurately reflect the agreed payment and terms in the recruitment process and are understood and signed by workers.

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

### Current systems:

- 1. According to the documentation, the facility management had established a disciplinary procedure for employees' misbehaviour which included oral warning, written warning and finally termination and the site, had developed a training program for all employees on the procedure. Employee interview confirmed that employees were aware of the disciplinary procedure.
- 2. As per management interview, document review and employee interview, there was a policy on Harsh Treatment.
- 3. There was an internal process for grievance, which was an anonymous suggestion box, where employees can report any grievances (harassment, bullying and discrimination), any received complaint will be handled by management, without any reprisal for the employee in question. All sampled employees were aware this system.

## Evidence examined – to support system description (Documents examined & relevant comments. Include renewal/expiry date where appropriate):

Details:

- 1. The relevant policy on prevention of harassment and abuse
- 2. Internal grievance procedure documentation
- 3. Disciplinary action records
- 4. Grievance records
- 5. Training records
- 6. Interview with management and workers

## **B.4. Compliance Requirements**

10B4.1 Businesses as a minimum must meet the requirements of local and national laws related to environmental standards.

10B4.2 Where it is a legal requirement, businesses must be able to demonstrate that they have the relevant valid permits including for use and disposal of resources e.g. water, waste etc.

10B4.3 Businesses shall be aware of their end client's environmental standards/code requirements 10B4.4 Suppliers should have an environmental policy, covering their environmental impact, which is communicated to all appropriate parties, including its own suppliers.

10B4.5 Suppliers shall be aware of the significant environmental impact of their site and its processes. 10B4.6 The site should measure its impacts, including continuous recording and regular reviews of use and discharge of natural resources e.g. energy use, water use (see 4–pillar audit report and audit checks for details).

10B4.7 Businesses shall make continuous improvements in their environmental performance. 10B4.8 Businesses shall have available for review any environmental certifications or any environmental management systems documentation

10B4.9 Businesses should have a nominated individual responsible for co-ordinating the site's efforts to improve environmental performance.

## **B4.** Guidance for Observations

10B4.10 Suppliers should have completed the appropriate section of the SAQ and made it available to the auditor.

10B4.11 Has the site recently been subject to (or pending) any fines/prosecutions for noncompliance to environmental regulations.

Note for auditors and readers. This environment section is intended to take not more than 0.25 auditor days. It is an assessment only and the main requirement is to establish whether a site is meeting applicable environmental laws and/or has any certifications or environmental management systems in place. Following this assessment, the client/supplier may decide a full environmental audit is required (see also best practice guidance/environment and guidance for auditor)

## Appendix 1

Comparison between ETI code and Customer's Supplier's Code. Any areas where a site complies with the Customer's Supplier Code, but not with the ETI code are discussed at the audit close out meeting and recorded on the CAPR. Note to supplier "for this customer it may not be necessary to complete corrective actions where NC's DO NOT meet the ETI code, but DO meet your customer's code. If the audit is shared with other customers who work to the ETI code or an equivalent international standard, corrective actions will be necessary."
